## Zombie Exodus

by Jim Dattilo

Show Stats Restart Achievements

You creep forward, watching for any movement, and conscious of making any sounds to alert the man. As you get closer, you see that the figure is wearing black pants and a black shirt and a hat turned backwards with the cafe's logo across it. He is focused on the woman and nothing else, including you, in the room. His body shifts on the table and uncovers the woman, who has a large red area across her chest and midsection. Turning his head, you spot a string of substance from the woman to the man's mouth and realize in immediate horror that the man is feasting on the woman. The man tears at the woman's flesh, with long pieces of organs covered in blood being fed into his mouth. The woman's head is caved in beyond recognition, and the thought that this could be Emma sickens you.

The zombie drops off the table into a chair and slips out a portion of intestine. You hold your hand over your mouth as dry heaves start, but you stifle them back. You consider leaving the cafe but notice a cell phone sitting on the edge of the table where the zombie is having his meal.

The only exit noticeable is through a set of double doors on the opposite side of the room.

- ☒ Leave immediately and try another area of the 3rd Floor.
- ☐ Sneak over and take the cellphone.
- ☐ Kill the zombie.
- ☐ Draw the zombie away from the table and take the cellphone.

I have bought this DLC, Activated it with Uplay, I restarted Uplay and Steam, restarted my computer, verified game cache (which did download new files for TD) and there is still nothing to redeem in the rewards vendor, I've done each thing that has been said below and more, I've tried activating the keys again and it has said it's already been activated.

No idea what else to do, my partner is right next to me and she bought the DLC and it went straight into her vendor no problem... A neat little puzzle game that. Worth your time! ;). Made me think about the world trade center 11/10. Mellow, shallow tracks in low- and midtempo. Perfect for puzzlies and minigames, so I'm sure: it's worth it!. Meh, it's "okay" really. It's essentially a slightly worse clone of a bunch of other TDs. Doesn't do anything really new, but it's playable if you're looking for another TD to play.

The DLC doesn't even start. Game keeps telling the DLC is not installed. The best Solitaire experience I've had in a while. I'm falling in love with it.

Very simple, the way it should be- No "Undo" feature, no hints, no timer, no "Challenge" system (I've been playing Microsoft Solitaire Collection waiting for this to come out, I would focus more on completing the challenges than finishing a round which became tedious, frustrating, and annoying).

Tame graphics and a generous amount of deck cosmetics to select from and the more popular game variations(.

Lovely soundtrack- New age feel/ Mellow/ Relaxing.

I'm no Solitaire pro, but I do enjoy me a good game of Solitaire. This version in particular has provided a fun, and refreshing experience.

Highly recommend to any Solitaire aficionado!. Good for a laugh and it can even run on a POS computer like mine.. haven't unlocked all the achievements yet but I enjoyed what I played. the game has a real indie feel and many of the choices in the game are very unintuitive but the game's logic is entertaining. could probably go back to complete the achievements but that would probably be a slog. The hour I played was a lot of fun. Well worth playing. It could use a bit more polish though, because there are some occasional spelling mistakes. Overall, game is very well written.. Very good game.. While I had a good time playing, I can't say I'd recommend this. Five Quests, three guns, two explosives (Don't get your hopes up, they're mines) and 10 levels of tedious pixel perfect clicking... and waiting... and dying. Other games have done this format better. Though I must say the metal music that plays during combat is pretty good.
